PROFESSIONAL EXPERIENCE:

Mr. Oroian is president of ADA Consulting Group, Inc. a registered engineering firm (Texas Firm F-3515) which provides subdivision platting; stormwater management plans; detention pond studies; general site development construction documents; as well as plan reviews and facility inspections on behalf of the Texas Department of Licensing and Regulation (TDLR); Fair Housing Act, Uniform Federal Accessibility Guidelines (UFAS) and general accessibility consultations; accessibility seminars. As a Registered Accessibility Specialist, Mr. Oroian has performed over 2,000 Texas Accessibility Standards (TAS) plan reviews and over 1,450 TAS inspections.

Mr. Oroian has over 20 years of site development engineering experience. His personal areas of experience include subdivision platting, rezoning, vested rights, easement dedications, street closures, NPDES/TPDES stormwater pollution prevention plans, ADA compliance, drainage analysis and detention pond design, construction documents and specifications. Mr. Oroian has performed site investigations in 26 cities around the State of Texas to include courthouse/appraisal district research, meetings with city planning and utility purveyor personnel, and site photography.

RELEVANT PROJECT EXPERIENCE:

- Atonement Academy High School, San Antonio, TX. Subdivision plat(s), site-civil construction documents, and underground storm drainage system design for a 3-story, +/-110,000 S.F. new high school serving an existing private Catholic school on 5.225 acres located at 15415 Red Robin, San Antonio, TX.
- PROXIMITY Townhomes, San Antonio, TX. Subdivision plat and site-civil construction documents for a proposed Infill Development Zone (IDZ) project near the Pearl District consisting of 3 story townhomes and associated common areas on 14 individual platted lots located at 811 Elmira Street, San Antonio, TX.
- San Antonio Lighthouse for the Blind Southside Campus, San Antonio, TX. Subdivision plat and site-civil construction documents for a proposed ground-up office and manufacturing facility on 2.9 acres located at 310 Eads Avenue, San Antonio, TX.
- New Hospital Tower, University Health System, San Antonio, TX. As a Registered Accessibility Specialist, performed the formal Texas Accessibility Standards plan review of this \$120 million dollar hospital facility located at 4502 Medical Drive, San Antonio, TX. This project was awarded under Request for Qualifications solicitation number: RFQ-2001-07-42.
- The Texas Union, University of Texas at Austin, TX. As an accessibility consultant, perform a site observation visit of common use areas at this existing 5 story student center facility and prepare a report of elements observed non-compliant with the Texas Accessibility Standards (TAS).
- Our Lady of Guadalupe – Helotes ETJ, Bexar County, TX New subdivision plat, water main extension, sewer service extension plan & profile, detention study, master site-civil planning, and TxDOT utility/driveway permitting for a proposed future 20+ acre recreational / meeting facility and chapel located at 11762 FM 1560 N., City of Helotes ETJ, Bexar County, TX.
- UTSA John Peace Library, San Antonio, TX. Americans with Disabilities Act Accessibility Guidelines (ADAAG) site consultation and report of finding including suggested corrective actions regarding exterior accessible route compliance to the John Peace Library. In addition, prepared engineered civil site and demolitions plans to address specific elements of suggestive corrective actions cited in the report as a consultant for the UTSA Facilities Services Department.
