

Michael P. Sepeda, P.E.

Project Manager
ADA Consulting Group, Inc.
TBPE Licensed Engineering Firm No. F-3512

Yrs of Experience: 21
Yrs w/ ADA Consulting Group: 13

EDUCATION:

- Bachelor of Science Civil Engineering, Texas A&M University–Kingsville, 1998
- 9 hrs Graduate Courses (continuing education), University of Texas at San Antonio, 2000-2001

PROFESSIONAL REGISTRATIONS:

- Licensed Professional Engineer Texas No. 94950

ORGANIZATIONS:

- Past Volunteer Board Member, YMCA Mays Family Branch (2011 to 2014).

PROFESSIONAL EXPERIENCE:

Mr. Sepeda has performed site civil engineering services throughout the State of Texas obtained from previous work experience at professional engineering firms in San Antonio and Austin, Texas. His areas of experience and expertise are site-civil construction documents (site dimensional control, grading, utility, stormwater pollution prevention (SWP3), fire protection), stormwater management plans, detention pond analysis & design, subdivision platting, TPDES reports, drainage analysis, and Water Pollution Abatement Plans (WPAP).

At ADA Consulting Group, Mr. Sepeda is responsible for firm civil engineering projects such as the preparation of civil engineering construction documents, storm water management reports, providing permit processing assistance, client consultations, and other similar civil engineering services.

RELEVANT PROJECT EXPERIENCE:

- Timberwood Park Unit 65 – San Antonio ETJ, TX. Prepared civil infrastructure engineering plans (street plan & profile, traffic signage, site grading, and water distribution) and storm water management report which included down stream channel analysis for this new 19 premium lot subdivision replat of a platted yet undeveloped 65 lot garden home style subdivision.
- Atascosa County Courthouse Annex – Jourdanton, TX. Prepared site civil engineering plans (site, grading, detention pond, and Storm Water Pollution Prevention Plan (SWP3/TPDES) for this ~ 29,750 S.F. facility located at 1 Courthouse Circle Drive.
- Lutheran High School Athletic Fields – San Antonio, TX. Prepared Master Development Plan (MDP) amendment, civil site engineering plans, Storm Water Pollution Prevention Plan (SWP3/TPDES), and storm water management report with detention study for a new athletic field development for a private school located at 18104 Babcock Road.
- City of Universal City Police & Fire Department Renovations – City of Universal City, Texas. Prepared civil site engineering plans (site, grading & drainage) and sewer line extension plans for the parking and building addition renovations for the City of Universal City Municipal Complex (Police, Fire, City Hall) located at 2150 Universal City Blvd.
- IDTF Shower/Latrine and Road/Parking, Camp Bullis AFB, TX. Preparation of civil site engineering plans (site dimensional, grading & drainage, utility, site-fire protection) for a new free standing latrine and associated parking lot, including a ± 850 ft roadway plan & profile, ±950 ft sanitary sewer main plan & profile, and TPDES report and associated Stormwater Pollution Prevention Plan (SWP3).
- The Wash Tub – Schertz, TX. Prepared civil site engineering plans (site, grading, utility, and site-fire protection) for a new car wash facility located at FM 3009 & Triton.
- Microtel, Round Rock, TX. Site layout schematic design, preparation of civil site engineering plans (site dimensional, grading & drainage, utility, site-fire protection), TPDES report and associated Stormwater Pollution Prevention Plan (SWP3) for a new 3 story, 83 room hotel located at 2621 South A.W. Grimes Blvd.
